Please note that the Skills for Life Curriculum is reactive to growing issues and therefore it is possible that the above curriculum will be changed to meet emerging needs or for other relevant reasons. Any changes made will still fit within the Department’s plan of following the statutory guidance from DfE on Relationships and Sex Education, Health Education and Citizenship.

The school considers that lessons which fit within the ‘Sex’ framework but outside of the Science National Curriculum or Specification which parents have a right to withdraw pupils from are those which contain references to pornography or sexual acts. Please see the school SRE policy for further details of your right to withdraw pupils and the process to do so.
