

Marshland High School is committed to ensure that all students reach their full potential. We strive to 'eliminate the gap' so no student is disadvantaged with their life chances. Alongside the students' academic studies, we offer additional support and enrichment opportunities which allow pupil premium students to thrive. Through the government's Pupil Premium grant we are able to offer a wide range of diverse support for each student. In 2017/2018 Marshland High School was allocated **£195,183** in the Pupil Premium Grant. The report below identifies where spending has been allocated and the impact has been detailed. A review of the strategy and spending will take place termly at the Governors meetings.
