

September 2025

Dear Parents and Carers,

**Voluntary Contribution Towards Final Outcomes – KS3 Art and Technology Years 7, 8 & 9**

At Marshland High School, we are committed to delivering a rich and engaging Art and Technology curriculum at Key Stage 3. As part of their learning, students work towards creating a final outcome that brings together the skills and techniques they have developed throughout each project.

To support this process, we are asking for a voluntary contribution of £5.50 for the 2025/26 academic year to help cover the cost of materials involved in producing these final pieces — which will allow students to take their completed work home at the end of the project.

These outcomes may include work in areas such as painting, ceramics, 3D design and textiles. The contribution enables us to use higher-quality materials and specialist finishes so that students can produce something they are proud of and keep as a lasting record of their achievement. If these outcomes are not taken home they will be repurposed to use the following year.

Please be assured that this contribution is entirely voluntary, and no student will be excluded from any part of the course if a contribution cannot be made. However, your support does make a real difference to what we can offer and helps us ensure students can keep their final work.

Payments can be made via your MCAS account.

If you have any questions or would like to discuss this further, please do not hesitate to contact me – [v.harris@marshlandhigh.co.uk](mailto:v.harris@marshlandhigh.co.uk).

Thank you for your continued support of Art and Technology at Marshland High School.

Yours sincerely,

Mrs Harris
