

# Exam Advice - MFL

## Reading Exam:

- Read the questions first before you look at the text.
- Make Sure you understand exactly what you are looking for.
- If the question is in French/German, answer in French/German.
- If the question is in English, answer in English.
- Use your knowledge about a topic to make educated guesses. (Ask yourself whether an answer is likely or not.)
- Don't worry if you don't understand. You are not expected to understand everything
- Look at the marks awarded for each question. If there are 2 marks, then make 2 separate clear points, etc.
- Express yourself clearly; the examiner will not guess your intentions.

## Listening Exam:

- Tune your ears in when you listen to the first example.
- Focus on key vocabulary
- Do not panic if you don't understand. Make a logical guess.
- Be ready for the longer conversations where you have to respond to several questions.
